

Term 5 - How does your garden grow?

Fee Fi Fo Fum! This term we will be learning all about plants and things that grow and in science seeing if our own beanstalks can reach the clouds. We will also be investigating questions such as 'where is the best place to grow a plant?'.

During our topic sessions we will be exploring our local environment using maps. I wonder if we can spot the bear on our bear hunt!

We are kick-starting the term with Jack and The Beanstalk and alternative versions of the story and seeing if we can create our own magical scenes in the clouds.

We will continue to develop our reading and writing through fantastic phonics and adding to our repertoire of sounds.

As mathematicians we will be looking at height, length, weight and capacity and seeing if we can find suitable equipment for our friend the giant alongside developing our place value skills.

Term 6 - On the move

As we reach our final term, Acorns will be thinking about different modes of transport, exploring different countries in the world and looking at where Dino Dragon will go on his Holidays! We will be learning about position and direction, alongside consolidating our place value skills in maths.

During topic, we will be seeing if we can put our impressive mapping skills to the test and follow them all the way to Kearsney Abbey.

We will be preparing ourselves for the next chapter of school life and participating in transition settings alongside beginning to welcome our new Acorns who will be joining our school in September.

We will be learning about the human body in science alongside investigating the best ways to make different vehicles move.

Lastly, we will also continue our fabulous phonics and keep improving our ability to read and write alongside our ability to blend and segment!

Please come and talk to us if you wish to find out anymore. We will be in contact soon to keep you informed of any important information and also events that are coming soon.
