

Invaders and Settlers

Throughout this term and next, we will be exploring people who invaded and settled in Britain through the ages; as well as developing our mapping skills, as we find out about where they came from and why they decided to settle in Britain.

We will be developing our sentences by adding descriptive language to 'paint a picture' in the readers' mind through lots of different activities across the curriculum. Whilst adding detail we will begin to explore the use of different punctuation.

In maths, we are consolidating our knowledge of place value before moving on to developing both our mental and written methods for addition and subtraction - not forgetting to practise our times tables to increase both knowledge and recall speed!

In science, we going to become Jedi's of the Force and develop our knowledge of different types of force and magnets and how they are used in the world around us. We will also be developing our investigation skills and learning about different types of experiments.

Within R.E we are exploring Christianity and the bible to answer: 'What is it like to follow God?' we will begin with the story of Noah from Genesis 6:5-9:17 to explore Noah's qualities. Then we will compare the covenant God made with Noah to agreements we make with each other and society today; along with any consequences of an agreement being broken.
