

Willows Term 2 November 2022

Toy Story!

It's a busy term with Willows, Acorns and Elms collaborating for a Nativity performance in our church for families to attend and enjoy. Through RE we will be exploring Why Christmas Matters to Christians.

Toys! Toys! Toys! Christmas is on its way and we will explore toys through reading Old Bear Stories by Jane Hissey and evaluating and comparing online games and board games through being game testers in computing.

We are continuing to practise and use a range of English handwriting and grammar skills through writing letters to Santa and reading and writing a variety of different styles of rhyming, acrostic and descriptive poems.

In maths we are further developing our skills using shape, number, place value and addition and subtraction and maths problem solving. We will also be exploring these skills using money.

This term Science is all about animals and humans, exploring how baby humans and animals grow and change through life cycles and what they need to survive and be healthy.

Our Art topic will be focused around Christmas and we will be exploring the techniques of appliqué to make Christmas stockings.

In design and technology, we will continue our learning through extending our understanding of vehicles and how they move by making our own fire engine model or toy vehicle which will include axels and wheels.

Recycle those used junk model bits and pieces and any donations of empty cereal bokes, bottles, cartons, yoghurt pots etc. that have been used and have been cleaned would be very welcome to help us with our models.
